

LUX MANUFACTURING INC.

Quick, Accurate, and Cost-effective Machining for Today's Technologies

Solid and Surface Model Machining

Having problems getting your Solid model parts machined. Send us your Parasolids files (.x_t, .xmt) , ACIS files (.sat) or IGES (.igs) files and we will give you a quote. Our lead times are short and our quality is excellent. Lux Manufacturing is located in Sunnyvale and has years of experience with many different types of materials from the polycarbonate shown to many ferrous and non-ferrous materials. We service the medical, semiconductor, telecommunications and electronics industry.
